- Collaborated in agile teams and maintained Git workflows.

PROJECTS

Compasspoultry | https://compasspoultry.app/
• Developed a poultry management system with mobile access to real-time flock reports.
• Helped reduce feed conversion ratio by 12%, improving farm profitability.

Auto Glass Now | https://www.autoglassnow.com/
• Built a service booking platform with location-based search and warranty info.
• Enabled over 2,000 daily booking requests with a user-friendly interface.

HelloFix | https://hellofix.com/
• Connected homeowners with service pros. Integrated Firebase Auth and APIs.
• Facilitated 5,000+ homeowner-service pro connections in the first 6 months.

Universal Service Fund | https://www.usf.org.pk/
• Government broadband project. Contributed to Laravel and REST API backend.
• Improved connectivity planning, resulting in 20% faster deployment.

Qareeb | https://www.qareeb.io/
• Developed scalable Docker-based services for an AI-driven IoT platform.
• Scaled the IoT service to support 10,000+ devices in real-time processing

EDUCATION

BS Software Engineering | University of Management & Technology (UMT), Lahore | 2016

Languages

English (Fluent), Urdu (Native)
